App Download and Use Steps

■ Software Download and Installation
1. Scan the QR code to download the Smart Life APP.
2. Turn on Smart Life APP and register your application account.
3. Login your account.

Play(Android),Or App Store(iOS). Download and install the app by searching "Smart Life" on Google.

Smart Life

Connect the Device

■ Connect the Device (Turn on Bluetooth & WiFi)
1. Turn on the phone WiFi and Bluetooth.
2. Login to Smart Life app and refresh the page.
3. Select the device you want to add.
4. Enter the 2.4GHz WiFi network and password (the device does not support 5GHz network) .
5. Wait for the device to be connected, click "Next".
6. Finally, click the "Finish" button in the upper right corner to enter the feeding page.

■ Set A Reasonable Feeding Time

Feeding Settings: You can continuously set a daily feeding schedule for your pet.

Note:
The function consumes a lot when battery powered, and the working time only lasts 20~24 hours, so it is more energy—saving to use dual power supply.
■ Troubleshooting Tips
1. Please connect the external power supply before downloading the program.
2. Support 2.4GHz signal, not 5GHz signal.
3. The distance between feeder and home WiFi should not be too far, make sure both can be connected.

2.4G

Product Disassembly & Cleaning

Hosts

Note: In addition to the host part of the feeder's other assembled parts can be disassembled and cleaned.

Washable Parts	Non—Washable Parts

Q&A Trouble Shooting

Q:Why I can not connect to the WIFI?
A:Please check if power supply has been connected,Then make sure you select the 2.4G instead of 5G WIFI.Then connect it again.

Q:Why feed on the APP but no food dispensing from the feeder?
A:If the APP shows the feeding has been succeeded,but no food dispensing from the feeder.Firstly suggest to check if the food tank got enough food .Secondly if the impellors have been rotated normally.(You can Judge from the sound).Thirdly suggest to feed again for few more times to avoid the signal delay cause for the troubles.(Internet delay).

Q:Why I can not login my Smart life account?
A.Firstly, please check if the feeder has been connected to the WiFi properly. Secondly,please check if the account has been occupied by others. Suggest to unload and Reinstall the APP.

Q:Is it possible to set up a feeder schedule when the feeder is on battery power?
A: When powered by battery only, you can use all the functions of the APP, including setting a new feeding schedule. In the networked state, the device consumes more power to run all functions, and can only support less than a day with battery power only. (It is recommended to use both battery and power supply in daily use).
